

... GETS MORE OUT OF FRUITS

BIN-TIPPING
SERIES GKE

ADVANTAGES

- The machine is made completely of stainless steel
- Plug-in compact unit with hydraulic power unit
- Ready-to-use delivery
- Easy and quick cleaning
- Very low maintenance
- High mobility due to wheels
- Individual customer modification on request

BIN-TIPPING

GKE WITH HYDRAULIC POWER UNIT

With the bin-tipper the delivered bins can be dosed and emptied into the washer system without effort. With the hydraulic unit the bin is tipped and emptied into the washing container of the following washing/grinding unit. A dosing valve regulates the corresponding amount of fruit.

1

WORKMANSHIP

The machine is made completely of stainless steel and suitable for large bins 1,0 x 1,2 meters or 1,2 x 1,2 meters.

A continuously adjustable dosing slide and the integrated hydraulic unit make the unloading less work.

2

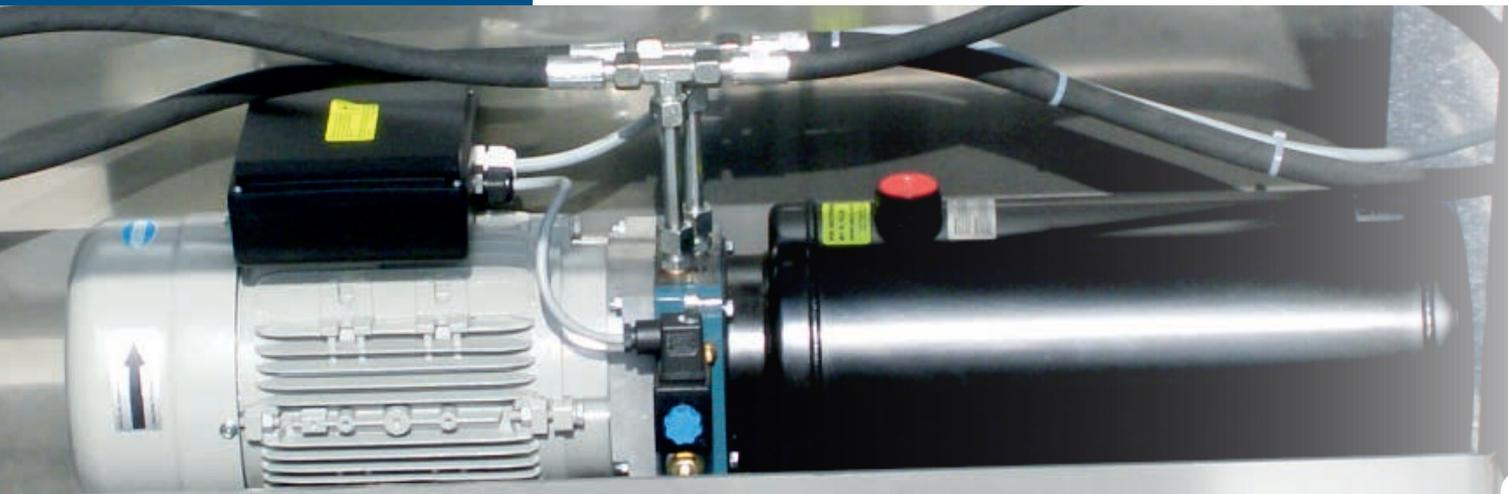

EASY OPERATION

In the bin-tipper the filled bin is loaded by means of a forklift, and by pressing the switch, it is then swung up by a hydraulic until the correct height for emptying is reached.

Caption: 1) Optimal ejection height, 2) solid construction with high shear unit features, 3) powerful tipping unit, 4) optional foot pedal

BIN TIPPING UNIT GKE

TECHNICAL DATA

GKE

STANDARD VERSION

Dimensions L x W x H [mm]	about 1600 x 1480 x 1220
Tipping height [mm]	850/1000/1200
Ejection width [mm]	500
Height tilted [mm]	2420/2625/2835
Duration of panning operation [sec]	15
Weight [kg]	350
Electric connection [V/Hz]	400/50
Rated power supply [V/kW]	2,2

CUSTOMER-SPECIFIC REQUIREMENTS

Bin-tipping units are also available in customized versions. Just get in touch with us and tell us your special requirements. The engineers from Kreuzmayr will create and realize your requested bin-tipping version. Let us advise you.
